iPhone Shortcuts

HOW TO SET A TIMER QUICKLY

To set a timer in quick-fast time, bring up the Control Centre by swiping down diagonally from the top-right of the screen (if your iPhone has a Home button, swipe up from the bottom of the screen), then long press the Timer button. Swipe up on the slider to set a timer duration, then hit Start.

Note that each tile in the slider increases the timer duration in the following steps: 1, 2, 3, 4, 5, 10, 15, 20, 30, and 45 minutes, and 1 or 2 hours. If you need a longer or more specific duration, just ask Siri to set the timer.

Please note:
A "long press" is when you hold your finger on a button for an extended amount of time.
